To Whom It May Concern:

I am writing concerning your product Protect-All.

Our salon has been using your 5'x5' flooring as a mat under our cutting chairs since 2002, and want to let you know how pleased we are with it.

First of all, your product was the only one that had the perfect color match to our Italian stone floor. This was very important because we did not want to detract from the beauty of the floor, and all of the mats sold by Beauty Supply stores only have black, gray and mauve.

Also, for the first few weeks of business we did not have your product yet and our feet, hips and knees would ache just after working 20 minutes on that hard stone floor.

Once the mats were in place we instantly had no more problems, and we work 12 hour days! Not only have the mats protected our stone floor from color and perm solution spillage but they are still in great shape even with all the traffic we get in our salon.

Thank you again for a product that actually works!

Sincerely,

Jane Yocum
Owner/stylist
